

src/common/include
/interfaces/IImageEncoder.h

```
graph TD; A["src/common/include /interfaces/IImageEncoder.h"] --> B["opencv2/core.hpp"]; A --> C["optional"]; A --> D["vector"];
```

The diagram illustrates the dependencies of the header file `src/common/include/interfaces/IImageEncoder.h`. Three blue arrows point from the header file box to three separate boxes below it, indicating that the header file depends on `opencv2/core.hpp`, `optional`, and `vector`.

opencv2/core.hpp

optional

vector
